# PROLOGUE

ONCE, UPON A TIME . . .

A DEMON DESCENDED UPON CANVAS KINGDOM, PLUNGING THE ONCE PEACEFUL LAND INTO A SEA OF TURMOIL AND CHAOS.

HOWEVER, GOD BESTOWED A FEW BRAVE WARRIORS WITH THE POWER OF "GRAFFITI", AND INSTRUCTED THEM TO USE IT TO DEFEAT THE DEMON.

THANKS TO THE BRAVE WARRIORS AND THEIR POWERS, THE EVIL DEMON WAS DEFEATED, AND SEALED DEEP IN THE CATACOMBS OF THE CITY UNDERGROUND, SO HE COULD NEVER WREAK HAVOC ON THE KINGDOM AGAIN.

...AND SO THE YEARS WENT BY, TO THE POINT WHERE THE STORY OF THE DEMON AND THE POWER OF "GRAFFITI" IS BELIEVED TO BE ALL BUT A MYTH...UNTIL NOW.

# CHARACTERS

## PASTEL...AGE 13

A magical little girl, who, disguised as a "box dog", acts as Pixel's muse throughout his journey. While her knowledge of the "Graffiti" power comes in handy, her non-stop talking tends to get on Pixel's nerves.

## PIXEL...AGE 10

The main character and Prince of Canvas Kingdom. He's very energetic, but his short attention span tends to get him into trouble. With his newly acquired Graffiti Wand, Pixel will attempt to save his beloved kingdom from eternal darkness.

## TABLET

A boy of the demon clan who is always looking to battle with Pixel...though for what reason, beyond boyish pride, remains a mystery.

THE EVIL BEINGS THAT GET IN PIXEL'S WAY.

## DEMON AKA MEDIUM

A master of evil who, with his devils, is looking to take over the world. While he was captured and sealed by warriors 1,000 years ago, a freak accident has unwittingly (and unwantedly) brought him back into action.

# THE GAME

## FIGHT AS YOUR OWN CREATION!

Pixel and Pastel have gone on a mission to liberate their kingdom from the vile clutches of the Demon. However, a number of little devils (evil Graffiti creatures) stand in their way. Only as a Graffiti Creature can Pixel overcome these little devils!

## STRENGTHEN YOUR CREATURE!

While your Graffiti Creation may start out weak at first, as you defeat little devils and raise Pixel's level, you can add body parts to your creature and make it stronger.

## DO MORE WITH YOUR GRAFFITI POWERS

Pixel can use his Graffiti powers to temporarily disguise himself as one of the little devils, after collecting a Devil Card. In addition to assuming its identity, Pixel also inherits all the powers of the little devil. You can even freely edit the devil's powers or its appearance by re-drawing the Devil Card yourself.

## HOW TO COLLECT THE ITEMS

Items can be collected by running into them, either as Pixel or as a Graffiti creation.

**HEART** - This will slightly increase your HP.

**MIDDLE HEART** - This will greatly increase your HP.

**LARGE HEART** - This will completely revitalize your HP.

**BRONZE MEDAL** - This will slightly increase your Experience Level.

**SILVER MEDAL** - This will moderately increase your Experience Level.

**GOLD MEDAL** - This will substantially increase your Experience Level.

**PLATINUM MEDAL** - This will greatly increase your Experience Level.

## THE CARDS

Whether they be creatures the player has created or acquired in the game, all graffiti creatures will be saved as cards. The cards will be divided in the following two boxes:

**PLAYER BOX** - Only the player's Graffiti Creatures can be saved here.

**COLLECTION BOX** - All little devil or graffiti cards collected throughout the game can be saved here.

# STRENGTHENING PIXEL

Pixel's growth throughout the game is displayed by his current level. By collecting medals at each level, your Player Level Gauge will start to fill up. Once the gauge reaches 100%, Pixel's level will increase by 1.

By increasing Pixel's level, he will also gain the following:

**HP** - Pixel's total possible HP will increase, and will also lose less power when attacked.

**AP** - Pixel's total possible AP will increase, and will be able to unleash an attack for a longer duration.

**ATTACK STRENGTH** - The strength of Pixel's attacks will increase, causing more damage to his enemies.

**ATTACK COMBO** - You will be able to set up an Attack Combo with the ☐ button (ref. pg. 23) and unleash it.

**NOTEBOOK FUNCTIONS** - Useful skills and functions will be added to your Graffiti Notebook, allowing you to increase the strength of your creatures.

# CAPTURING THE LITTLE DEVIL

Instead of fighting the little devils, you also have the option of "capturing" them with your Graffiti Wand. If the capture is successful, you will turn into the captured devil for a limited time. After your time has run out, you will turn back into Pixel. Also, should you capture and change into other devils during your time as the captured devil, you cannot go back to the identity you originally assumed. You will have to capture the same devil again.

In addition to assuming the devil's identity, you also collect its powers. These powers can be edited in to your future creations (ref. pg. 19). If a particular devil's powers catches your eye, be sure to capture it. However, be wary of which ones you capture, as there is a limit to how many can be captured.

**\*If you go near the Notebook Monument as Pixel, your Devil Capture meter will be reset.**

As Pixel, wave your Graffiti Wand and capture a devil with the ☐ Button.

**THE STARS THAT APPEAR IN THE TOP RIGHT CORNER OF THE SCREEN SHOW THE NUMBER OF MOVES THIS ENEMY HAS THAT YOU CAN ADD TO YOUR POOL OF ATTACKS.**

If you succeed in the capture of a devil, the devil will be covered in a ball of light.

**NOTE: YOU ARE ONLY TRANSFORMED FOR A LIMITED PERIOD OF TIME!**

Pixel will then be covered in light, and will start transforming into the captured devil.

**THE DIAMOND ON THE BOTTOM RIGHT CORNER OF THE SCREEN SHOWS THE NUMBER OF CAPTURES YOU HAVE REMAINING.**

Use your time as a devil to learn of the new powers you have acquired!

**THIS WILL END AS SOON AS YOU TRANSFORM INTO OTHER DEVILS OR BACK TO PIXEL.**

## STEP 1: DRAWING THE BODY

Go to the "Graffiti Notebook" menu and press the ☐ button, which will display the Full Body Menu. Once you have decided on the color, click on the pen and start drawing the body.

Keep the ☐ button pressed, and use the left analog stick to draw a shape.

Your shape will solidify when the line intersects itself, or when you press the ☐ button. Six different 3D versions of your shape will appear. Highlight the shape that you want by using the directional buttons and press the ☐ button to select your shape.

Use the left analog stick to rotate and examine your new 3D shape.

"3D-FY" YOUR SHAPE!

### ONE POINT

There is a limit to how much "line" (ink) you can use. If it looks like you will run out before you can complete your shape, press the ☐ button to backtrack and start over again.

## STEP 2: ADDING THE PARTS

Move your cursor to the region of the body where you would like to add a part, and press the ☐ button to add a connector.

Rotate the body with the left analog stick. Draw a part onto the body from a different angle than what was originally displayed.

This allows you to draw a more lifelike, 3D part rather than a mere 2D rendition that was initially displayed.

Legs would be a good set of parts to start off with. Upon selecting the function "Legs", your first parts will be finalized.

GOOD JOB! NOW TRY DRAWING A NEW SET OF PARTS! RETURN TO THE GAME TO CHECK HOW YOUR CREATURE MOVES.

### ONE POINT

The number of "functions" of the various parts will increase as Pixel's level increases.

### STEP 3: EDITING THE PARTS

You can make various changes in the color and shape of your creature's parts. Move the Pen to the part you wish to edit and press the  button to display the "Parts Menu".

**I WANNA CHANGE THE COLOR OF THE LEGS!**

Move the Pen to the legs, press the  button, and select "Color".

Select your color of choice and press the  button.

Lo and behold, the color of one leg has changed!

**HOW ABOUT MAKING MY TAIL THICKER?**

Move the Pen to the tail, press the  button, and select "Thickness".

Use the directional buttons to select the tail's thickness.

Now that is one majestic tail!

**NAH, I DON'T NEED ANY EXTRAS!**

Move the Pen to the extra part, press the  button, and select "Delete".

Voila, it's gone!

### STEP 4: SPECIAL FEATURES YOU CAN HAVE FUN WITH

You can copy your parts and paste them onto a different section of the body.

Move the Pen to the parts you wish to copy and press the button. Select "Copy" from the Parts Menu.

Go to the section of the body you would like to paste the parts onto, and press the  button. Press the  button to finalize your selection.

Select how you wish to paste the copied part(s).

Identical parts have been successfully pasted onto a different section of the body.

### ONE POINT

As Pixel's level increases, you will receive more special features. The game will temporarily save all copied parts. You can make multiple copies of the parts by holding down the L2 button and pressing the  button.

### STEP 5: THE FINISHING TOUCH

Finalize your creature with some pattern or color changes.

**I'LL ADD SOME PATTERNS AND WHISKERS.**

Press the  button to open the Full Body Menu, and select "Pen".

The "Pattern Pen" allows you to add patterns to your parts. After selecting the color and thickness of your choice, start drawing.

Use the "Line Pen" to draw additional shapes, like the whiskers shown on the left.

**I'LL MAKE BOTH MY LEGS RED.**

Move the Pen to the red leg, display "Functions" with the L1 Button, and press the  button.

Next, position the Pen on the Yellow leg. Display "Functions" with the L1 button, and press the  button to repaint the leg red.

You have thus completed your very own creature. Press the  button to display the Full Body Menu and select "Complete" to finalize your drawing.

## SELECT VOICE

## WHEN TO USE THE ATTACK EDIT

Anytime you capture a little devil, you will inherit its attacks and moves (ref. pg. 13). While attacks are necessary to defeat little devils, they also count in getting you through the level. Be sure to check all collected attacks and moves once you reach The Notebook Monument.

## ATTACK TYPES

All Graffiti creatures and little devils are equipped with a their own attacks and moves. Broadly speaking, there are 7 types of attacks that can be used throughout the game.

**BODY ATTACK** - Tackling, Exploding, etc.

**ARM ATTACK** - Straight Punch, Hook...any attack involving an arm.

## ATTACK PROPERTIES

Some attacks involve the use of certain properties, such as fire or water. These must be used at the right times in order to proceed through the game.

## ATTACK COMBOS

You can edit your "Attack Combos" with the ☐ button. Combo attacks cannot be used at the beginning of the game. However, as Pixel's level increases, you will receive more attack combos. Have fun creating your own original combo attacks to defeat your enemies. As shown on the right, by pressing the ☐ button, you can combine a "Straight Punch", "Bend Hook", and "Lightning Spin Kick" into one wicked combo!

"THERE'S A RIVER IN FRONT OF YOU. WHAT WILL YOU DO?"

In this case, the "Cool Chop" was edited to allow the Character to easily cross the river. But wait, that's not all! You can jump over the river as well! There are so many combos you can create on your own. Use your imagination and have some fun!

# Q&A (WHAT DO I DO WHEN ?)

## Q1) But I can't draw!!

A) There are lots of people who cannot draw very well at first. However, if you keep playing and constantly draw, you will gradually get better. Just remember, it's only a game...you're not being judged by how well you can draw.

## Q2) How do we use the little devils to their full effect?

A) When you've transformed into a little devil, first, test out what it's capable of by pressing all the buttons and seeing what they do. Little by little, you will get the hang of it.

## Q3) Tell me how to defeat the boss!

A) The trick is to observe how the boss fights, and look for any weak spots he/she may have. Be sure to think carefully in judging what attacks will work well on the boss.

## Q4) I acquired new attacks, but I can't use them!

A) You need to have the right parts in order to carry out the attacks you have. For example, you cannot "Punch" if you don't have any arms, can you?

## Q5) What do I do if I want to exchange creatures with my friend?

A) Go to the Page Menu in the "Story Mode" screen. Here, I'll explain it in more detail below.

### • If You Were to Acquire a Creature From Your Friend

Go to the "Card Holder" option in the Page Menu, and select an empty card (or one you don't mind overwriting). After you select the "A Different Graffiti Set" option, select "Player Box", and select the MEMORY CARD slot your friend's memory card (PS2) is inserted into. Select your creature of choice, and set it in your own Card Holder.

### • If You Were to Give a Creature to Your Friend

Go to the "Card Holder" option in the Page Menu, select the card you wish to give away, and select the "Save to Player Box" option. Your friend will then select the MEMORY CARD Slot where your Player Box data is stored in. He/she should then pick the card you offered, and save it to his/her Card Pocket.
